The following list has been prepared by the Information Department of the Woman's Committee of the Council of National Defense in response to requests which have come from the many women who wish to find the kind of war service for which they are best fitted. It includes occupations, both paid and volunteer, now open to women in war work, and the addresses to which application may be made for further information.

Rapidly changing conditions make it impossible to guarantee accuracy in a list of this sort. The information is, however, as definite and complete as is possible to obtain at the present time.

For purposes of convenient reference, there is appended a list of the State Chairmen of the Woman's Committee of the Council of National Defense, a list of the Divisional Secretaries of the Civil Service Commission, and a list of the Divisional Headquarters of the American Red Cross and U. S. Employment Service Offices.

In order to insure the stability of the civil service under war conditions, the President issued the following Executive order on April 2, 1917:

“In view of the present emergency conditions, and until further notice, the Civil Service Commission is directed to refuse examination to any person who is, or who has been within three months of the date of the examination, employed in the Government service, or to certify any such person who is on the eligible register of the commission, unless such person submits the written assent of the department or office in which he is or has been employed previous to his taking such examination or to his being so certified. Such assent shall be based solely upon the finding, after due consideration by such department or office, that the person can render better service for the Government in the place for which examination is held.

“This order is issued solely because of the present international situation and will be withdrawn when the emergency is past.”

The spirit of the Executive order is also observed by the departments in the matter of transfers.

Application blanks and full information concerning civil service examinations may be obtained from the secretary of the local board of civil service examiners at post office in any important city.
